- For Car2PC BMW !

- \* BMW trunk mounting cable
- \* Designed to allow you to use CD changer port located in the trunk

Are you looking to install one of our interfaces into your BMW? It is easy now with the new BMW trunk mounting cable.

This cable fits easily into the CD changer port located in trunk of your BMW. It will adapt to the cable plugged into your CD-Changer. The installation is easy and requires less time than dashboard installation.

Some benefits of trunk mounting installation:

- No need to take out your stereo (or to disassemble the dashboard) in order to gain access to the CD changer port of your stereo.
- Less time for installation work
