- Perfect for car window
- Perfect reception quality

The W-LAN-dongle WLI-U2-SG54HG comes with two suction caps and can be attached to a laptop or window and ensures a very high reception- and sending-performance.

The W-LAN-adapter is connected by USB-1.1 or 2.0 to the PC. It supports security encryption modes WPA-PSK with AES, TKIP and WEP with 64 or 128-Bit.

The transmission speed is almost doubled when comparing to integrated WLAN chipsets. The unit is powered completely through the USB port so that there is no extra adapter is needed.

Features:

- Built-in Omni-Directional Antenna for Increased Coverage
- Up to 54 Mbps* 802.11g
- Easy Setup With AirStation One-Touch Secure System (AOSS)
- USB 2.0/1.1 Interface
- Supports WPA-PSK (TKIP, AES) and 128/64-bit WEP Security
- Backward Compatible with 802.11b
- Bus Powered - No A/C Adapter needed
- Includes USB Extension Cable
- Attaches with Suction Cups to the back of your laptop or at any window
