

Calc Plug-In

Calculator Plug-In Manual for Centrafuse™

Author: Bojan Piki (stric on Flux and mp3car forums)

Version: Tested with Centrafuse 1.13

Date: December 14, 2006

About

This is a basic calculator plug-in for Centrafuse. Features include basic math operations, and also a % function which is useful for calculating price discounts, and tax rates. Other features include square root ($\sqrt{\quad}$) and square (x^2) functions. Calculation history is also available for review.

Installation of the plug-in

Open the file CFCalc.msi and follow the instructions. When prompted for the install path make sure to enter the path of the Centrafuse install folder and not any subfolder or any other folder. For example, "*C:\Program Files\Flux Media\Centrafuse*".

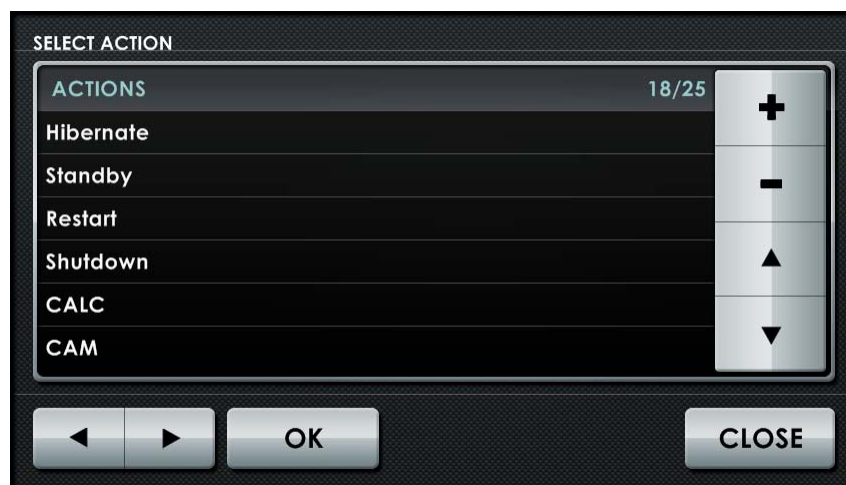

Installation (continued)

From the Settings menu, select BUTTON LAYOUT, press SETUP and you will see the screen below. Press up/down to locate the button that you want to assign to Calc. Select the button and press SET.

Choose a button, press SET

Now you will see the Select Action screen. Press up/down until you locate the CALC action. Select it as the action for the selected button and click OK. Once it is set, select CLOSE to return to the Centrafuse Settings menu. Click CLOSE again to exit Settings.

Assign Calc plug-in as the Action to the selected button.

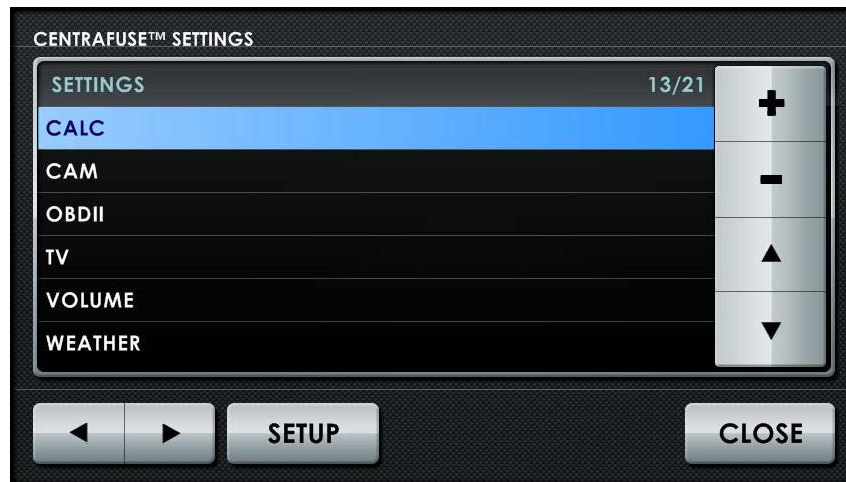

Setup

Use the arrows to navigate left or right until the SETTINGS button is shown.
Press the SETTINGS button.

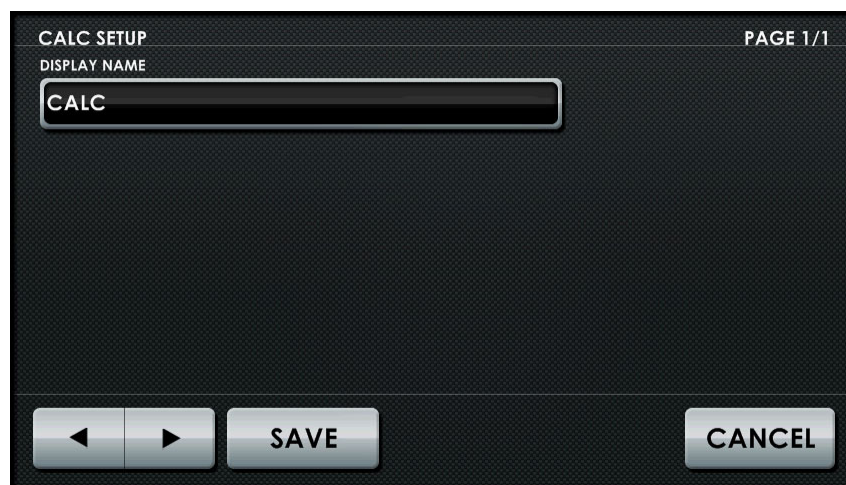

SETTINGS button in Centrafuse™

In Settings, press up/down to locate CALC. Select it, and press SETUP.

Choose CALC plug-in in Centrafuse™'s settings

This will open the Setup screen for the Calc plug-in. Here you can change the display name for the plug-in.

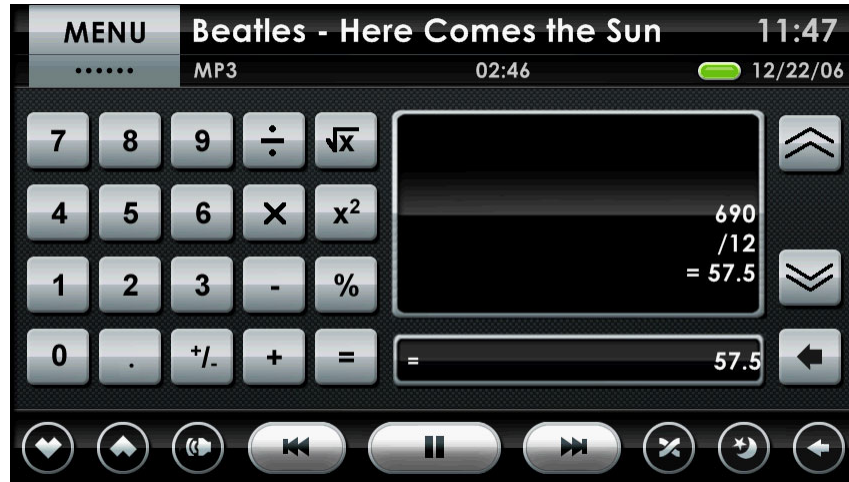

Setup for Calc plug-in

Usage

You should see this button in the Centrafuse main menu. Click it to open Calc.

CALC button in Centrafuse™

- On the left side there is a number pad and buttons for basic calculations.
- On the bottom right you can view the calculated result, and above it there is a calculation history display.
- Next to the calculated result is a backspace button. Above the backspace button you will find scroll buttons for viewing the calculation history.
- The history can be cleared by pressing anywhere in the calculation history display area.

You can also use the keyboard to control this plug-in. This is especially useful for non-touchscreen operation. The key codes are shown in table below:

Key	Operation
0 - 9	input 0 - 9
. or ,	Decimal point
+	Plus
-	Minus
*	Multiply
/	Divide
%	calculate the percents

Key	Operation
r	square root
k	square
[BACKSPACE]	backspace
[UP ARROW]	history up
[DOWN ARROW]	history down
= or [ENTER]	equals
s	change sign
