

999.00 EUR
incl. 19% VAT, plus [shipping](#)

Remnant offer. Refurbished. Slight traces of usage on device. 2 years warranty.

Note : No VGA !

With this Car2VIDEO adapter you can connect the MMI 8.8" TFT display of an BMW 1-/3-/5-/6-series with external video sources.

You can use up to 2 video sources (PAL/NTSC) with the adapter (eg. DVD, TV, Playstation). One video port can turn on automatically when rear gear is inserted (=rear camera input)

Easy installation (Plug & Play) :

Remove the display from dashboard. Remove the LVDS connector from the display box and connect the Car2VIDEO between. Also connect the Car2VIDEO adapter to power.

The Video-sources can be chosen with the included remote control unit and I-Drive.

Notes :

- You do not need an BMW TV Tuner.
- You do not need an BMW navigation system (you only need the MMI display)
