CTFPND-1 V5 is a multimedia GPS navigation system with a large 7" digital touchscreen of 800x480 resolution. The device is equipped with a very sensitive GPS module based on SiRFStar VI chipset. The device also has an integrated FM transmitter/modulator which will enable you to hear all sounds on your car speakers wirelessly.

The device has integrated Bluetooth and microphone and enables you to connect to your cell phone (hands-free calling).

Multimedia features allow to view movies and photos and to listen to music from the built-in speakers. The device supports all popular multimedia formats. As a memory expansion it uses SD cards. The navigation software and maps are pre-installed, so the device out of the box is a turn-key solution.

## Hardware
