Panasonic 12.7mm Blu-ray burner for notebooks and laptops
Panasonic Blu-ray drives are the industry's first, fastest, and most compatible Blu-ray drives.

- Slimline SATA technology advances beyond the bottleneck of IDE connections
- 6x Speed on BD-R 25GB and 50GB media
- 4x Speed on all BD-R XL media
- Backwards compatibility with all the most popular DVD and CD media formats, including DVD-RAM discs

With the power of a Blu-ray burner comes the next generation of data storage technology. Able to burn:
- 25GB on a single layer Blu-ray disc
- 50GB on a double layer Blu-ray disc
- 100GB on a triple layer Blu-ray disc
- 128GB on a quad layer Blu-ray disc
