MULTI-AWARD WINNING RAZER™ MECHANICAL SWITCHES

Designed specifically for gaming, Razer Mechanical Switches actuate at an optimal distance, giving you speed and responsiveness like never before. Razer Mechanical Switches have been lauded as the new standard for all mechanical gaming keyboards since their introduction.

ENGINEERED FOR DURABILITY

Razer Mechanical Switches have consistently proven themselves to be the best for gaming, delivering both top-notch performance and reliable durability without compromise. This very same Razer technology and design is now being manufactured in-house end to end, ensuring even stricter requirements are met for each switch produced, resulting in a life span of up to 80 million key strokes.

INDIVIDUALLY BACKLIT KEYS WITH DYNAMIC LIGHTING EFFECTS

The all-new Razer BlackWidow Ultimate features individually programmable backlit keys along with dynamic lighting effects all set easily through Razer Synapse.
