Fully working, manufacturer recertified genuine device.
1 year warranty

Whether you're right- or left-handed, use a claw, palm, or fingertip grip, the Razer Diamondback will stay comfortable in hand even during the most action-packed gaming marathons

Engineered with the most precise 16,000 DPI gaming mouse sensor, the Razer Diamondback is equipped to deliver unsurpassable accuracy

Individually customize each lighting location to create your very own lighting effect, then sync it with your other Chroma devices for a truly stunning display that is as unique as your play style

Buttons have been strategically placed on either side of the Razer Diamondback that can be easily programmed and actuated to execute any command, skill, or macro to put you ahead of the competition

From sensitivity to lift-off cut-off tracking to surface calibration, you get to customize every detail to be saved in the cloud, so you can play at your best in an instant, wherever you are
