- **1D/2D barcode imager**
- **For Topicon MDT680**
- **Integrated scanner module**
- **Warehouse and logistics**

The MOD-680-BAR is the barcode scanner module for the rugged handheld Topicon MDT680. It adds an integrated 1D/2D imager for fast barcode capture right where the work is done.

Typical applications are warehouse, logistics, goods receiving and field service. Topicon provides a scanner setup app with source code for integration into your own applications.

Compatible with: Topicon MDT680
